

## Zuni Mountain Landscape Collaborative Forest Landscape Restoration Program

Funded by the Collaborative Forest Landscape Restoration Program (CFLRP), of the USDA Forest Service

### **All Lands Implementation strategy meeting**

**Time:** 9 a.m.

**Date:** 6/30

**Location:** New Mexico State University (Grants)  
Martinez Hall, Room # 007

**Meeting purpose:** Many ecological and economic investments have been made in the Zuni Mountains over the last decade. An “all lands” strategy will help protect those investments by helping to ensure a sustainable wood supply, employment and training opportunities, foster fire adapted communities, and to continue to build the restoration economy in the Zuni Mountains. This meeting brings together timber harvesters, processors and land managers to strengthen the connection between those with acres in need of treatment and those with the capacity to treat them. By coordinating our efforts, we can navigate common challenges including available NEPA cleared acres, lack of markets, transportation, and capacity.

### **Agenda:**

- I. Introductions (~10 minutes)**
  - a. Name, affiliation
  - b. Who else should be included in this collaborative effort?
- II. The context for an “all lands” approach**
- III. Discussion (~60 minutes)**
  - a. Challenges
    - What challenges are land owners/managers facing that limit the ability to treat acres? What institutional bottlenecks/barriers exist to implementing treatments?
    - What challenges are harvesters and processors facing that cause delays, set backs, and other problems? What are your thresholds, break-even points?
  - b. Solutions
    - What steps can we all take to address some of those challenges?
- IV. Next steps: (~20 minutes)**
- V. Tour of Mt. Taylor Manufacturing (Hosted by Matt Allen) (~30 minutes)**
