FORESTRY FOR LAKE STATES BIRDS

1.5 days of field tours
and discussion

Photo: Ed Zlonis.

TOPICS

- Forest bird habitat needs
- Silvicultural approaches
- Balancing objectives
- Field examples

REGISTER ONLINE

JUNE 22 & 23

This overnight meeting of foresters, wildlife biologists, and students at Long Lake Convention Center in Palisade, MN includes field tours, food, and inspiration. Discuss forest management that enhances migratory songbird habitat, engages woodland owners in forest stewardship, and helps ensure a sustainable future for the region's forests and associated forest products. This will be an excellent opportunity to participate in the early stages of forest bird habitat management recommendations in the lake states.
