

The Forest Stewards Guild, Tennessee Wildlife Federation, and University of the South invite you to

# *Learn-and-Burn 2019: Controlled Burning for Wildlife Habitat*

*Learn how controlled fire in your woodland can help restore native habitat and promote wildlife species.*

## **Presentations and tour:**

**Target date: Saturday, April 6**

**Back-up date: Saturday, April 13**

**Please keep both dates available!**

**Burning contingent upon weather**

**University of the South Forest**

**Sewanee, TN**

**8:30am to 4:00pm CT**

## **Join us and bring a friend**

Observe a demonstration prescribed fire and learn so much more!

Topics covered will include:

- Cost-share assistance programs
- Other resources available
- Shortleaf pine restoration
- Woodland health benefits of burns
- Wildlife habitat enhancement
- Human safety during burns
- Tools, techniques, and training
