

Founded in 1969, Stockton University, New Jersey's *Distinctive* Public University, is also one of America's most distinctive public universities, consistently ranking among the nation's finest educational institutions and among the top ten public Master's institutions in the Northeast. Stockton proudly offers the academic, technological, and cultural advantages of a large institution combined with the community spirit of a small liberal arts college. Stockton is noted for combining an outstanding interdisciplinary approach to graduate and undergraduate education with all the qualities of an outstanding employer. We offer a unique *vibrant* working environment, a wealth of work related opportunities and outstanding employee benefits. Stockton is committed to attracting, *encouraging* and retaining a qualified workforce to support the mission of the University. The University is located in the Pinelands National Reserve in southern New Jersey, about one hour from Philadelphia, two hours from New York City, three hours from the Baltimore/Washington area, and 20 minutes from Atlantic City. The University's location, active, *stimulating* campus life and diverse community make Stockton University a *great place to work!*

Assistant Professor of Environmental Science, Tenure Track, Starting September 1, 2019

The Stockton University Environmental Science program is seeking to fill a tenure track position, at the rank of Assistant Professor, with a Forest Ecologist to teach forestry and related courses, as well as continue the implementation of Stockton's unique Forest Management Plan, for September 2019. Preference will be given to those who have a demonstrated past experience actively managing forests on the private, state or federal levels, using the precepts of ecological forest management. The successful candidate will be expected to contribute to teaching in the Environmental Science program, as well as in the interdisciplinary General Studies curriculum. Additionally, a commitment to university service and continuing research activity is required.

Responsibilities:

- Lead students in the Forestry Concentration within the Environmental Science program by teaching courses in Ecological Forest Management, Dendrology, and additional upper level courses related to expertise.
- Contribute to the core Environmental Science curriculum by teaching a program core course, (e.g., Statistical Analysis of Ecological Systems or Ecological Principles).
- Develop a laboratory-based research program involving undergraduate students.
- Contribute to the interdisciplinary general studies curriculum.
- Excellent teaching and scholarship are expected. Teaching load is 12 hours each semester and typically consists of lecture and lab sections.
- Continue and enhance current campus forest research and student involvement with the Stockton Forest Management Plan. Currently this research includes experiments using prescribed burns and various silvicultural treatments.
- Serve as an advisor to undergraduate students.
- Participate in service to the university, community, and discipline.
- Demonstrate, through past accomplishments and actions, the ability to support Stockton University's diversity commitment and strong student-centered vision and mission.

Required Qualifications:

- Ph.D. in Forest Management, Silviculture, Forest Ecology or related field is required

Preferred Qualifications:

- Ability to incorporate a commonly used statistics package in teaching of undergraduates (R, SAS, etc.)
- Experience managing forests using the principles of ecological forest management.
- GIS experience
- Ability to complement upper level forestry classes with additional upper level courses, potentially Spatial Statistics or Remote Sensing

Salary commensurate with experience.

Screening of applications begins immediately and will continue until the position is filled.
